

About

The Dennis Hutcherson Memorial Golf Tournament was founded in 2021 after Dennis lost his 105-day battle with COVID. In the midst of that loss, those who knew and loved him wanted to create something that truly reflected who he was—bringing people together, sharing laughter, and making a difference in the lives of others.

At its heart, this tournament exists to help students who need it most. The funds raised go directly toward scholarships for graduating high school seniors who have the drive to continue their education but may not have the financial means to do so. Financial need remains a central part of how recipients are chosen.

Over the past five years, students from surrounding communities have already benefited from this scholarship fund, and with continued support, we hope to reach even more. As we head into our 6th tournament in 2026, each year continues to reflect the generosity of this community—where every sponsor, volunteer, donation, and team directly helps students move forward while honoring Dennis's memory in such a meaningful way.

More than anything, this day is about honoring Dennis in a way that would make him proud—by lifting others up, opening doors for those in need, carrying on his generous spirit, and the smiles he put on the faces of everyone around him!
